

Console 35

Console 35/35

Console 35/42

Statische waarden alleen geldig voor console 35/42:

| | |
|----------------------------------|------------------------|
| Grensmoment | M_G : 312,72 Nm |
| Reactiekracht | F_{AX} : 3,91 kN |
| Reactiekracht | F_{BX} : 3,91 kN |
| M_G, F_{AX}, F_{BX} geldig bij | LF1 : tot L = 825,0 mm |
| | LF2 : tot L = 525,0 mm |
| | LF3 : tot L = 675,0 mm |

Technische gegevens:

| | |
|--|---------------------|
| Materiaal: | Staal |
| Oppervlak: | Galvanisch verzinkt |
| Globale zekerheidscoëfficiënt γ : | 1,35 |

* max. toelaatbare belasting bij een rekgrens van $\sigma_{zul.} = 160 \text{ N/mm}^2$ en een maximale doorbuiging van $f = L/150$

Console 35/35 - Railprofiel 35/35/1 - Voetplaat 100 x 45 x 4 mm

| Omschrijving | Lengte [mm] | Max. toel. belasting * | | | Gewicht [kg/st] | VPE [st] | Artikelnr. |
|--------------|----------------|------------------------|-------------|--------------|--------------------|-------------|------------|
| | | belasting 1 | belasting 2 | belasting 3 | | | |
| | | F1 [kN] | F2 [kN] | q0 [kN/m] | | | |
| Console | 150 | 2,05 | 1,02 | 13,65 | 0,285 | 25 | M1274150 |
| Console | 225 | 1,37 | 0,68 | 6,07 | 0,362 | 25 | M1274225 |
| Console | 300 | 1,02 | 0,51 | 3,41 | 0,440 | 25 | M1274300 |
| Console | 375 | 0,82 | 0,41 | 2,18 | 0,517 | 25 | M1274375 |
| Console | 450 | 0,68 | 0,34 | 1,52 | 0,594 | 20 | M1274450 |
| Console | 525 | 0,59 | 0,28 | 1,11 | 0,671 | 20 | M1274525 |

Console 35/42 - Railprofiel 35/42/1,5 - Voetplaat 111 x 40 x 8 mm

| | | | | | | | |
|---------|-----|------|------|-------|-------|----|-----------|
| Console | 225 | 2,78 | 1,39 | 12,35 | 0,630 | 20 | M12760225 |
| Console | 300 | 2,08 | 1,04 | 6,95 | 0,752 | 20 | M12760300 |
| Console | 450 | 1,39 | 0,69 | 3,09 | 0,997 | 15 | M12760450 |
| Console | 525 | 1,19 | 0,60 | 2,27 | 1,119 | 15 | M12760525 |
| Console | 600 | 1,04 | 0,49 | 1,74 | 1,241 | 10 | M12760600 |

belasting 1

| | |
|---------------|--------------------------|
| $F_{AZ} = F1$ | $M_G = \frac{F1 * L}{2}$ |
|---------------|--------------------------|

belasting 2

| | |
|---------------|----------------|
| $F_{AZ} = F2$ | $M_G = F2 * L$ |
|---------------|----------------|

belasting 3

| | |
|-------------------|----------------------------|
| $F_{AZ} = q0 * L$ | $M_G = \frac{q0 * L^2}{2}$ |
|-------------------|----------------------------|

Opmerking:

Alle aangegeven belasting waarden hebben uitsluitend betrekking op statische belasting.
